

Reciprocal Program Registration

South East Edmonton Seniors Association is a participant of the Edmonton's Seniors Coordinating Council's Reciprocal Program Registration Agreement. Seniors can access a variety of instructor-led courses from Edmonton's seniors' centres with one membership. Membership to one of the following centres allows you to take instructional courses at the other centres at the member rate (called reciprocal program registration).

What you need to know about Reciprocal Program Registration:

- Reciprocal registration applies to ***instructional courses only***. However, some centers will accept reciprocal registration for social events, non-instructional programming, and clubs. Check with the center you want to register with.
- You must show a valid membership card (or proof of membership) from one of the participating centers to register.
- Participating centers have different registration procedures, so contact the center to find out what you need to know to register.
- If you have a membership at the other center, you will still fill in the Membership form at SEESA Front Desk (do not pay) and receive Key Fob for our database (to attend the classes here).
